To Whom It May Concern:

Gryphon A. Phoenix helped supervise and co-teach a group of Humboldt State University students during KINS 475 Elementary Physical Education for a total 14 hours. Mr. Phoenix earned a grade of "A" for this course as part of completion of his bachelor's degree program. During this time Mr. Phoenix spoke up during the HSU students' lessons when necessary. He gave pointers, constructive feedback, as well as thoughts and suggestions on how to improve their lessons. Mr. Phoenix additionally helped with set up of equipment and gave the HSU student-teachers extra equipment when he saw there was a need. At the end of each class meeting Mr. Phoenix facilitated group discussions between him and the HSU student. During these discussions, Mr. Phoenix would ask the HSU students to provide their observations and thoughts on how to improve their lessons.

Overall, Mr. Phoenix did an excellent job of working with the HSU students and facilitating discussions within the groups.

Sincerely,

David Adams, PhD
